- Then → **auto-enroll into 30-day subscription**
- Free shipping

Product arrives ~day 3
 They use it for ~5–7 days
 Charge hits when habit starts forming

STEP 1 — TIMING

Wait **60–90 minutes after waking** before taking NOOT.

Why:

Your body naturally releases cortisol in the morning.
Taking NOOT too early can blunt the full effect.

 STEP 2 — EMPTY STOMACH

Take NEWT on an **empty stomach** or with a **light snack only**.

Why:

Food slows absorption.
An empty stomach delivers a **faster, cleaner impact**.

 STEP 3 — MIX + DRINK

- Mix 1 sachet in **16 oz cold water**
- Shake or stir thoroughly
- **Drink immediately**

Why:

Fresh mix = optimal taste and performance.

 STEP 4 — ONSET

Expect to feel effects within **10–20 minutes**.

What to expect:

- Clean energy
 - Heightened clarity
 - **Decision drive**
-

 IMPORTANT

- Contains **200 mg caffeine**
- Do not combine with other stimulants
- Not recommended for children or caffeine-sensitive individuals
